

2026 PHOTOSEED GRAIN CONTRACT

ZeaKal, in partnership with Perdue AgriBusiness, is offering a specialty program for PhotoSeed™ soy, a bean with enhanced oil and protein characteristics. PhotoSeed soybean varieties offered in this program must be identity-preserved and delivered to designated locations.

PREMIUM

- **\$0.35/bushel premium** for grain production
- Identity-preserved acreage contract with ZeaKal for delivery to an approved location
- Delivery Time Frame: Sep 2026-Feb 2027

QUALITY

- 14% max moisture
- Grain quality must meet the quality criteria stated in the contract. Discounts applied for grade and moisture at the time of delivery
- Premium subject to verification of trait purity as specified in ZeaKal stewardship agreement

CONTRACT OVERVIEW

- Types of contracts (ex: buyers call)
- All sales subject to execution of ZeaKal stewardship agreement and Perdue AgriBusiness onboarding agreement
- Grower field boundaries required for all PhotoSeed soybean contracts. Boundaries can be submitted after planting (Submit one: Bayer Climate Fieldview, Granular, John Deere Ops, FSA Map, Field Coordinates (long & lat) or Shape File Accepted)

DELIVERY LOCATIONS
